

Silicon Valley experience on the Bosphorus

2017

Who is Wordapp?

Founded in 2015, Wordapp is a Turkey-Sweden based software startup company led by a Swedish entrepreneur and a CTO with a Silicon Valley background.

Wordapp is comprised of a team of creatives, problem-solvers, polyglots and disruptive innovators designing a new product that lets people monetize their language assets. Our growing international team is working very hard to revolutionize the world of freelancing and the internet!

Where are we going?

Wordapp is a free word-processing platform that currently operates in 25 languages, and aims to cover many more, for e-Commerce that lets you manage your content creation with a crowd of writers and editors suited to your job. With this technology we are disrupting the whole content creation world.

We want to grow and we want to grow aggressively! Currently handling the operations from Istanbul HQ but we are in process of opening a new payment office in Netherlands, and local sales offices in Malta, Stockholm, Tel-Aviv and Berlin.

Wordapp is a software company and at Wordapp we value data and innovation. We are using the latest software development

technologies and focus on implementing them with Agile methodologies.

What do we offer our employees?

At Wordapp, our most valued asset is our employees. That's why we pride ourselves on offering not only an excellent work environment but also opportunities for professional and personal growth within a collaborative, friendly team.
